

ECTA

Commitment

I hereby declare my support to the ECTA Responsible Care 2025 Core Principles to:

1. Make continuous efforts to improve the environmental, health, safety and security performance of our logistic operations of chemical goods.
2. Ensure that proper care is taken to protect the safety and health of all people involved in our chemical logistics operations.
3. Minimize the environmental impact of our logistic activities.
4. Use resources and fuel efficiently; and support and help develop initiatives to apply environmentally friendly transport solutions. Minimize waste.
5. Take adequate measures to ensure the security of our operations.
6. Collect data and report openly on our performance, achievements and shortcomings in a timely manner.
7. Listen, engage and work with people to understand and address their concerns and expectations.
8. Cooperate with governments, international institutions, organizations and authorities in the development and implementation of effective regulations and standards to improve logistic safety.
9. Encourage the responsible management of all those who are involved in providing a service to us, in particular logistic sub-contractors and cleaning stations.

And I fully commit to the ECTA Responsible Care 2025 Program to:

- Apply impact-driven methods to continuously improve the environmental, health and safety performance of my company;
- Champion and facilitate the application of the ECTA Responsible Care 2025 initiative across the business value chain;
- Address stakeholder expectations in the continuing development of Responsible Care;
- Advance sustainable development.
